July 2013	French Baccalaureat of Science, Lycée France Vincent Van Gogh, Netherlands Specialized in Physics

Programming Languages

Proficient at: Unity(C#), C/C++, LUA, Java
Knowledge of: PHP, Python, JavaScript, HTML, CSS

Selected Projects & Games

- Inkwell - A Virtual reality application built around sensory deprivation to increase public understanding of the challenges following blindness all while offering an alternative therapy method for people suffering from phobias.
- DS4 Sampler - Audio Interface that transforms any game pad into a multipurpose synthesizer made on MAX MSP.
- Echoli - A Virtual reality horror game focused on the use of live microphone input data (FFT) to create a uniquely immersive experience.
- Portable mixing table - A mobile application meant to be strapped onto your arm that gives you access to various OSC panels connected to a MAX MSP patch via Bluetooth.

Information about my projects is available on the portfolio section of my website.

Assets

- Languages - French (Native), English (Fluent), Spanish (Conversant).
- Multicultural - Lived in Canada, Singapore, France, Belgium, the Netherlands, Switzerland, the UK and Australia.
- Passionate - As an enthusiast gamer, I like to contribute and create add-ons, plugins, sound effects and other small assets for games encouraging this behavior.
- Social - As an event organizer, I am used to giving speeches, bringing people together and making them comfortable all while ensuring organization and safety.
